

## CSEA Endorsed Member Benefit Announcement

### Game Changer, Time Saver!

LogATot is a company that is focused only on in-home childcare providers and our challenges. They took the time to understand the unique needs of in-home childcare providers.

The cutting-edge technology of Voice Command is a game changer for my program. LogATot has improved my programs daily record keeping, time in/out, health checks, diaper changes, meals, and milestones. Communication with families is instantaneous at check-out time and sends daily reports regarding their child's day at care. This means more quality time spent with the children in care, more quality time with my own family and less stress.

It is truly remarkable to be completing a physical task and talking to the voice assistant to record it simultaneously! Now I do not have to do my data entry outside of business hours. Each day I am saving over 2 hours on data entry!!!

**Heidi Brandt**  
CSEANVOICE Local 100A President

### LogATot - Eliminate the daily burden of computer work with your VOICE!

At CSEA, we believe in empowering our members, and with LogATot, it's all about your voice. This innovative tool is tailored to free up time normally spent on data entry each day resulting in more time for the children and for YOUR family.
